HISTORY/FACTS/ISSUES:

Each year the Bureau of Economic & Business Research at the University of Florida (BEBR) prepares April 1 permanent population estimates for all local government for use in State revenue sharing programs as well as other planning purposes. BEBR requests each local government to review their permanent population estimate and confirm if it is reasonably correct.

The County's April 1, 2009, population estimate is 95,304. This is an increase of 2,188 compared to the April 1, 2008. This increase is despite the fact the State of Florida experienced a decline in permanent population between 2008 and 2009. Approximately half of the State's counties lost permanent population between 2008 and 2009. The County's increased 2009 permanent population estimate is indicative of the continued development activity in the County, primarily focused within The Villages.

The April 1, 2009, population that will be used for State revenue sharing excludes the inmate population, which is estimated at 9,275 on April 1, 2009. Consequently, the County permanent population for State revenue sharing is 86,029 for total County and 76,513 for unincorporated County.

Attached are a table and charts showing the County's permanent population estimates from 2000 to 2009. Generally, this information shows the population growth within the County during this time period is focused within unincorporated areas (unincorporated population increased from 84% to 90% and annual % of growth higher in unincorporated county compared to total county).

Staff finds the April 1, 2009, BEBR permanent population estimate for Sumter County is reasonably correct and requests the Board authorize staff to confirm the estimate as reasonably correct to BEBR.

SUMTER

COUNTY - SUMTER

PRELIMINARY POPULATION ESTIMATE (PERMANENT RESIDENTS) APRIL 1, 2009

CENSUS	TOTAL POPULATION CHANGE	PRELIMINARY ESTIMATE 4/1/09	INMATES 4/1/09	PRELIMINARY EST. LESS INMATES 4/1/09
4/1/00				
53,345	41,959	95,304	9,275	86,029
